Menu Music:

<https://www.youtube.com/watch?v=8wSYwqbp4S4>

This is the link to the music we used in the Main Menu of our program.

Game Music:

<https://www.youtube.com/watch?v=0zBSY30kfn4>

This is the link to the music we used in the Game room of our program.

Learn to use JavaFX:

<https://gamedevelopment.tutsplus.com/tutorials/introduction-to-javafx-for-game-development--cms-23835>

We consulted two different websites to learn about the classes and interfaces available in the JavaFX graphics library. We read a tutorial on the following website when we first started, to learn about the general mechanics of the library.

<https://docs.oracle.com/javase/8/javafx/>

We read the Oracle documentation of the package to find specific methods and properties of the various classes we were using.

<https://stackoverflow.com/questions/48235779/javafx-audioclip-play>

We read how to use the AudioClip JavaFX Library from this StackOverflow link.
